PROFILE

Software Engineer with a passion for delivering the best code. With a background in sales and customer engagement, ability to work alone and with others as well as lead a team.

EMPLOYMENT HISTORY

Github Projects

https://github.com/Palme412/sunflower-dash

https://github.com/Palme412/spotify-favorites

https://github.com/Palme412/cali-visiting

Software Engineering Fellow, General Assembly

Oct 2021 — Jan 2022

Sunflower Dash - a simple platformer with the goal of picking up sunflowers and reaching the end, with fluid movement and bouncy jumps.

Spotify Favorites - Pick a genre and be taken to that genre page with three playlists based on that genre.

Cali Visiting - Visiting the massive state of California is a joy, but, what do you do when you get there? This app helps by providing a few things to do in each county in select regions of the state.

Sales Associate, Mondelez International   Bismarck, ND

Jul 2020 — Oct 2021

Engaged with management at store level to increase store sale for our product. Review past sales to plan ahead to increase future sales. Ability to follow directions and work independently.

Meat Manager, Cash Wise   Stanley, ND

Oct 2017 — Aug 2018

Supervise a team of three, review financial reports, train employees to be more efficient. Increase sales each quarter. Engage with customers and assist with any requests.

EDUCATION

General Assembly

Oct 2021 — Jan 2022
